

NAME: _____

1. Why are you at the number you circled and not the number before it? For example, if I'm at a 7, why am I not at a 6? What is the difference between those two numbers?

a. If you're at a 0, what has been the most helpful or most confusing part of this class?

2. Why are you at the number you circled and not the number after it? For example, if I'm at a 7, why am I not at an 8? What is the difference between those two numbers?

a. If you're at a 12, have you already declared? What is holding you back from the action of the declaring and making it a reality?
